NEW WEBSITE ROLLOUT

The long-anticipated release of the new website at www.amcomc.org is finally upon us! After working through several roadblocks including data capture and recreation, site management, and domain transferring between multiple registrars, the new site is now live. Please be sure to tell all of your friends about the new site. If you would like to provide some comments about the new website (good and bad feedback is always welcome for continued improvement!), please feel free to send a note to webmaster@amcomc.org. A special note of thanks goes out to Robert Howson and Danielle Torres for the easy transition of information.

ALBERT BOSCOV DIES AT 87

Long time friend of AMCOMC Albert Boscov passed away on February 10, 2017 at the age of 87 after a battle with pancreatic cancer. Mr. Boscov was a friend to the Antique Motoring Club of Monmouth County for many years and we were fortunate to participate in a number of grand openings for Mr. Boscov's department stores. Mr. Boscov will be greatly missed.

UPCOMING GARAGE TOUR

Club sponsor Frank Finger will be giving our club a private tour at Finger's Radiator Hospital on US 1 in North Brunswick Township. Club President Jack Torres is currently working with Sal and his team to secure a date and time for the demonstration.

Finger's Radiator Hospital does more than just radiators – they also repair and restore fuel tanks, removing the slush and gook from gas tanks in cars that have sat idle for a period of time. They coat the inside with a corrosive proof and an anti-rust patented material to eliminate soot deposit build-up. Finger's also does sand blasting at this location as well. Sand blasting cleans and removes everything, leaving your parts and pieces in bare metal condition.

Please keep an eye out on our new Events page as well as an email blast that will contain the final date.

THE SEASON IS STARTING!

As we all know, everyone is eager to put this cold weather behind us and have our tires hit the road. Please be sure to keep an eye on the Events page for updates on upcoming parades and shows. We will also be posting photos from our events on the website. If you would like to submit photos, please send them to photos@amcomc.org with a description of the event.

SUMMER PICNIC PLANNING

The Executive Team is already underway with planning the 2017 AMCOMC Summer Picnic. The club is attempting to work with our hosts of the last few years, with the overall goal of keeping the picnic at the same location in Wall Township. Please stay tuned for picnic details as they are confirmed.

TECH TIPS

Check all of the fluids in your car as you get it ready for Spring! During winter storage, your car can lose fluids such as motor oil, antifreeze, transmission fluid, brake fluid, and don't forget your battery water level!

FROM THE GAVEL

It is the start of the 2017 season and as we shake off the layers that keeps our antique and collectible cars sheltered and warm, now is the time to check on some simple, but important tasks to ensure your car is ready for a season of enjoyment just around the bend.

I cannot overemphasize the importance of liquids and fluids in your cars enough! Oil, antifreeze, brake fluid, transmission fluid, and any other liquid, oil, or grease that your car may have or need are all on the checklist. One that is often forgotten is the battery water level – make sure your battery is at its top performance for the season.

Fortunately for our club, we have Member Sponsors at the ready who are able to help us in cases such as these. Sponsors like Advance Auto Parts of Hazlet, Advance Auto Parts of Middletown, and Van Wickle Auto Supply in Spring Lake Heights are available to us and offer our members discounts if you show your membership card!

With that in mind, don't forget to pick up your car essentials like Peak antifreeze, which helps prevent corrosion in the inside of your engine. Another one is a good fuel conditioner to keep your fuel system clean and performing at its best. Why not pick up a battery tender to keep your car juiced up?

Do these simple, yet effective things to keep your car at its best and reduce the high cost of repairs down the line. I'm looking forward to seeing you out there all season long!

Wishing you endless miles and memories,

Jack
